Extension: Rule 613

SEC File No. 270-616, OMB Control No. 3235-0671

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (“PRA”) (44 U.S.C. 3501 et seq.), the Securities and Exchange Commission (“Commission”) has submitted to the Office of Management and Budget (“OMB”) a request for approval of extension of the existing collection of information provided for in the following rule: Rule 613 (17 CFR 242.613), under the Securities Exchange Act of 1934 (15 U.S.C. 78a et seq.).

Rule 613 of Regulation NMS (17 CFR Part 242) requires national securities exchanges and national securities associations (“self-regulatory organizations” or “SROs”) to jointly submit to the Commission a national market system (“NMS”) plan to govern the creation, implementation, and maintenance of a consolidated audit trail and central repository for the collection of information for NMS securities. The NMS plan must require each SRO and its respective members to provide certain data to the central repository in compliance with Rule 613. When it adopted Rule 613, the Commission discussed the burden hours associated with the development and submission of the NMS plan.¹ In doing so, the Commission noted that the development and

submission of the NMS plan is part of a multi-step process for developing the consolidated audit trail and that the Commission deferred its discussion of the burden hours associated with the other paperwork requirements required by Rule 613 – such as the requirements to provide certain data to the central repository – until after the SROs submit an NMS plan and there has been an opportunity for public comment.²

The SROs submitted to the Commission the NMS plan on September 30, 2014³ and an amended and restated NMS Plan on February 27, 2015.⁴ Although the existing collection of information pertains to the development and submission of an NMS plan, and such NMS plan has been developed and submitted, the Commission believes it is prudent to extend this collection of information during the pendency of the Commission's review of the NMS plan.

The Commission estimates that each of the 19 SROs would spend a total of 2,760 burden hours of internal legal, compliance, information technology, and business operations time to comply with the existing collection of information, calculated as follows: (880 programmer analyst hours) + (880 business analyst hours) + (700 attorney hours) + (300 compliance manager hours) = 2,760 burden hours to prepare and file an NMS plan, or approximately 52,440 burden hours in the aggregate, calculated as follows: (2,760 burden hours per SRO) x (19 SROs) = 52,440 burden hours. Amortized over three years, the annualized burden hours would be 920 hours per SRO, or a total of 17,480 for all 19 SROs.

⁴ See Letter from the SROs, to Brent J. Fields, Secretary, Commission, dated February 27, 2015 (“Amended and Restated CAT NMS Plan”).

The Commission further estimates that the aggregate one-time reporting burden for preparing and filing an NMS plan would be approximately \$20,000 in external legal costs per SRO, calculated as follows: 50 legal hours x \$400 per hour = \$20,000, for an aggregate burden of \$380,000, calculated as follows: (\$20,000 in external legal costs per SRO) x (19 SROs) = \$380,000. Amortized over three years, the annualized capital external cost would be \$6,667 per SRO, or a total of \$126, 667 for all 19 SROs.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.
